

Church around a Table

Sunday 4th October: Celebrations and Food

A full description of each feast can be found in Leviticus 23.

The people were more in tune with the seasons than we are today -

- What is our attitude to food supply and the supply chain in our culture.
- Does anyone have any “moral” buying habits towards particular products because of how they are produced or the treatment of the people who produce them
- What were the 7 Jewish Feasts
- What did each one celebrate
- What did each feast foreshadow in the New Testament
- What stage in history is the church now in relation to the these feasts.
- How is Jesus “the subject” of all of these individual feasts
- Can you give any examples of how Jesus connected with people around a table
- Think about the type of things we celebrate in our culture today - how. An these be used to share/show Gods plan of Salvation
